

Potential Mold Cleaning Procedures
Small/Medium Area – Pipe Insulation
(<150 lft.)

- ✓ Isolate the area
- ✓ Cover any furniture in the area
- ✓ Put on PPE, optional
- ✓ Spray all affected areas with mold inhibitor and allow to dry
- ✓ Mist affected areas with spray adhesive
- ✓ Wrap a piece of plastic around presumed moldy area
- ✓ Cut pipe lagging and put into plastic bag
- ✓ Re-insulate the pipe
- ✓ Remove any plastic covering
- ✓ Presumed mold re-appears
 - Determine source of moisture
 - Correct the moisture problem
 - Abate the new potential mold problem
